

# Session Booklet- Weather

With the weather being so unpredictable, it's become more and more useful to check the weather forecast for your area or an area you plan to visit. Luckily, as weather forecasting has become more sophisticated and accurate, the ways to find your forecast have become easier.

<p>There are a variety of websites that display weather forecasts, including <a href="#">BBC Weather</a>, <a href="#">Net Weather</a> and the <a href="#">Met Office</a>.</p>		
1	<p>Open your browser and go to <a href="http://www.metoffice.gov.uk">www.metoffice.gov.uk</a>.</p>	
2	<p>You should see a search box. Enter the postcode or the city, town or village for which you would like to see a weather forecast. Click on the magnifying glass or press enter</p>	
3	<p>When you type the location in, a little window will pop up giving you a chance to choose the location closest to the one you want.</p>	
4	<p>7 days of weather are displayed. Select a different day to see how the weather will be at different times of the day.</p>	
5	<p>At the bottom you can review more details like Wind speed, Humidity &amp; Visibility.  Sunrise and sunset times are also Shown</p>	

www.startpoint.org.uk

6	<p>Now try the BBC weather website. Type the following address in your browser.</p> <p><a href="http://www.bbc.co.uk/weather/">www.bbc.co.uk/weather/</a></p>	
7	<p>You can search for town, country or a UK postcode.</p>	
8	<p>You can create a list of favourite locations.</p> <p>Search for Stockport, click add to favourites.</p> <p>Now search for some more places and add to your favourites.</p>	
9	<p>Select favourite locations to see a drop down of your favourite locations</p>	
10	<p>On a windows laptop you will have an App on the Windows screen.</p> <p>You will have a similar App on your tablet or mobile phone.</p>	
11	<p>For tablet and mobile phone users you can download BBC weather, Met Office or The Weather Channel from your App store for free.</p>
