

## Safety – Health Forums

First produced in June 2018

Health – Health Forums		
1	<p>What is a Forum?            A forum is an online discussion board where people can ask questions, share their experiences, and discuss topics of mutual interest.</p> <p>You don't need to register for an account to read the information on a forum.            If you want to make a comment on a forum then you would need to register for an account.</p>	  
Q1	What information would you normally provide to create an account?	Answer:
2	<p>First, we will look at the talkhealth forum.</p> <p>From your web browser <b>type</b> <a href="http://www.talkhealthpartnership.com">http://www.talkhealthpartnership.com</a> into the address bar and <b>press</b> Enter on your keyboard.</p>	
3	<p>Along the top are various links. Health Conditions, Clinics, PSP, Blog, Forums, Product reviews &amp; Freebies.</p> <p>There are various adverts from sponsored companies displayed throughout the pages on this website. Selecting any of these adverts would open a new internet Tab (screen), which we are NOT doing.</p> <p><b>Select</b> Forums.</p>	  <p>Product reviews &amp; Freebies would require you to Register an account with them which would entail providing your email address. As we are only browsing the articles there is no requirement to supply any of your details.</p>
Q2	How many different forum topics can you select from?	Answer
4	<p>Once you select forums you can select a forum you are interested in, in our example we selected Allergy.</p> <p><b>Select Allergy</b></p>	

Starting Point Community Learning Partnership – Digital Skills  
 Funded by The Good Things Foundation – Future Digital Inclusion Fund

5	<p>Various forums related to Allergies will be listed with different headings.</p> <p>i.e. General, Children, Food.</p>	
Q3	<p>How many topics &amp; posts are there for Food allergy &amp; intolerances?</p>	<p>Answer</p>
6	<p><b>Select</b> food allergy and intolerance.</p> <p>The date and who originally posted the document is shown, the date and who last made a comment &amp; how many replies &amp; views have been made.</p>	
Q4		<p>Answer</p>
7	<p>Return to the Home Page of the talk health Website by selecting the logo at the top of the page, and <b>Search</b> for a forum you are interested in.</p>	
8	<p>Using the headings at the top search through the other topics on the website.</p>	
9	<p>Patient access is another forum that you can access and read forums for free</p>	
10	<p>From your web browser <b>type</b> <a href="https://patient.info/forums">https://patient.info/forums</a> into the address bar and <b>press</b> Enter on your keyboard</p>	
11	<p>You can use the displayed alphabet to look up forum topics that interest you.</p> <p>Again there will be adverts displayed which if selected will open a new internet page.</p>	
12	<p><b>Browse</b> the website for forums that you are interested in.</p>
