

# HAPPY FAMILY MEAL

## Starting Point Lockdown Learning Family Craft Session

### Crafiy activiy

This is a fun activity to do before teatime to make oven chips and chicken into a fun treat.

As some of our favourite fastfood places are closed right now, you can recreate it at home. We have even given you a recipe to make your own chicken dippers at home using cornflakes. Because we are cooking in the oven, it contains less fat than deep frying them.

### What you will need

Included in this guide are two templates to make both the chips box and also the chicken dippers box. You can print them out or copy the freehand onto a piece of paper.

You will also need 2 sheets of A4 paper or card each, sellotape and pencils or felt tip pens (non toxic).

You will also need oven chips & chicken.

### What to do

Use the templates below. You can print them if you have a printer or copy them. There will be some printed versions at the doorstep depots on Thursday.

Cut out, fold and glue (although we sellotaped) as instructed.

Remember you are going to put food in these so use non toxic stationary.

### Tips from us trying it

I am sure this would work better with stronger paper or card, but we only had paper which was fine.

Instead of glue, we used sellotape which was stronger. The sellotape was stuck on the outside of the boxes.

We made sure the chicken and chips has as little grease as possible by draining on kitchen roll.

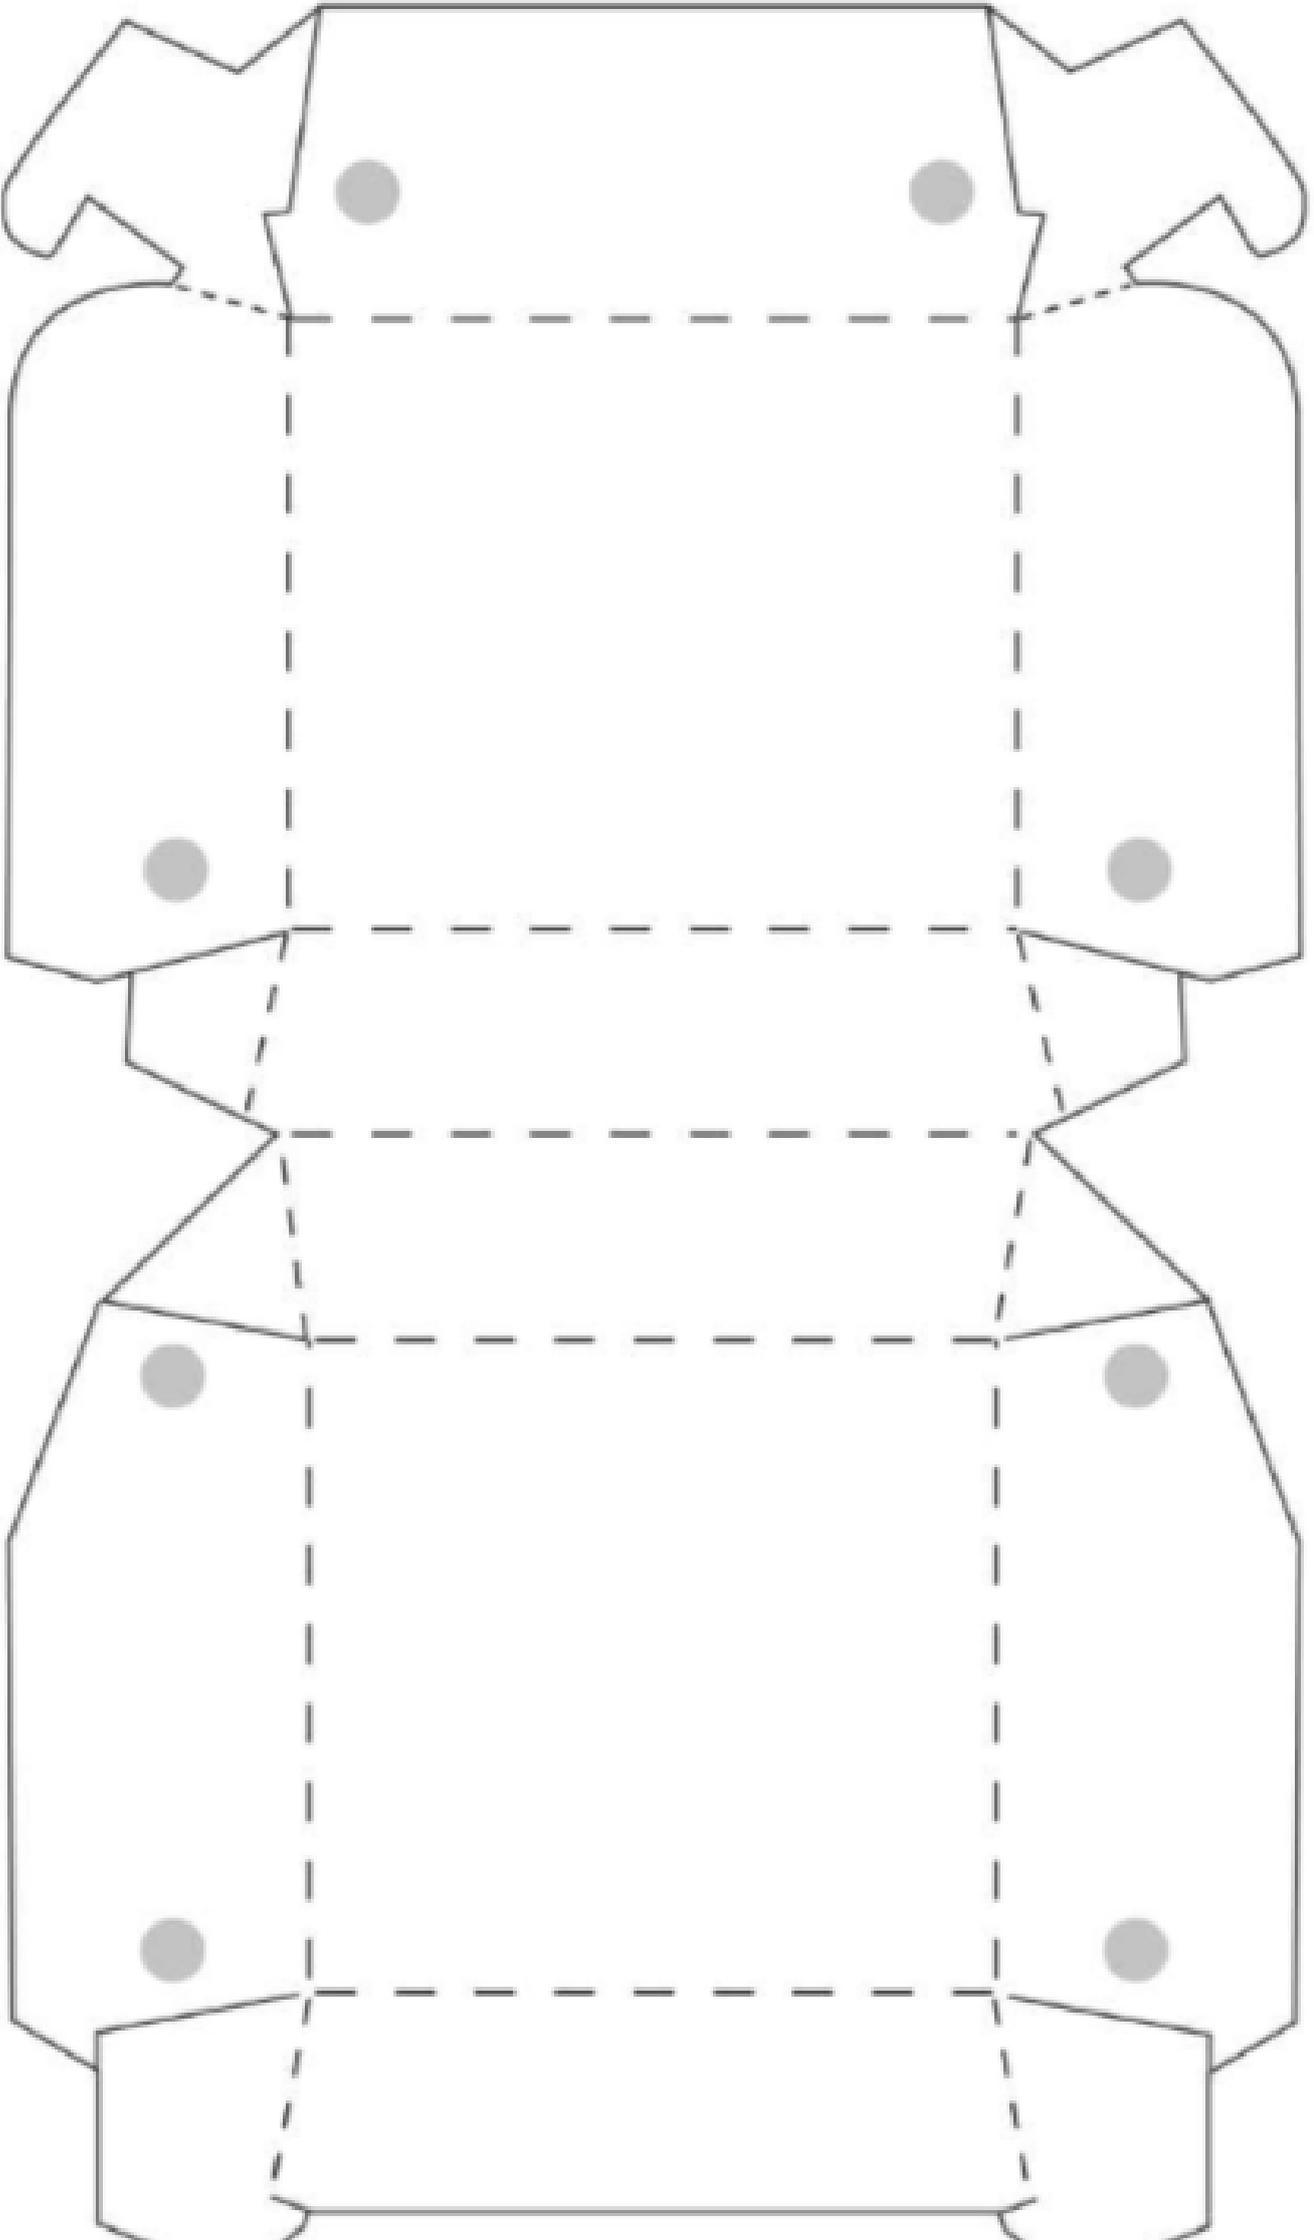

### What next

Once you have created your boxes fill them with oven chips and dippers. There are lots of ways to make your own chicken dippers online. Here is a one we like [>=>](#)

We also made milkshake by blending icecream and milk.

Please share your photos with us on Facebook [>=>](#)
